

Federal Universal Service Fund Annual Certification Form

2020 Certification Form

Full legal name of company ("Customer" or "Company") and any designated names as they appear on Service Contract with Supplier:

Full Legal Name of Customer: _____

Other Designated Names of Customer: _____

The customer identified above (known hereafter as "**Customer**") submits this annual certification in support of its request for waiver of Federal Universal Service Fund ("**FUSF**") surcharges. This Exemption Certificate applies to Federal Universal Service Fund Surcharges purchased from **Apeiron Systems Inc.**, known hereafter as "**Supplier**". The application of FUSF Surcharges by Supplier will be based upon representations and information provided by the Customer in all portions of this certification form, as well as information available on the Federal Communications Commission ("FCC") website, <http://apps.fcc.gov/cgb/form499/499a.cfm>. 47 C.F.R. § 64.1195 requires all telecommunications carriers and interconnected VoIP providers to register using the FCC Form 499-A. Therefore, the Customer represents and certifies the following:

US and International Customers complete the following:

Select the option below that describes the use of the specific services that the Company purchased or will purchase from the Supplier: (Check only one box)

I certify, under penalty of perjury, that the Company is purchasing service(s) for resale, at least in part, and that the Company is incorporating the purchased services into its own offerings which are, at least in part, assessable U.S. telecommunications or interconnected Voice over Internet Protocol services. I also certify under penalty of perjury that the Company either directly contributes or has a reasonable expectation that another entity in the downstream chain of resellers directly contributes to the federal universal service support mechanisms on the assessable portion of revenues from offerings that incorporate the purchased services.

Entity-Level Certification	All services purchased are, or will be, purchased for resale.
Account-Level Certification	All services associated with particular billing accounts as specified in Attachment A (Page 4) are or will be purchased for resale.
Service-specific Certification	Individual services specified in Attachment A are or will be purchased for resale.
Service-specific Exceptions Certification	Individual services EXCEPT those specified in Attachment A are or will be purchased for resale.
Not Exempt (See Part B.)	Not claiming any FUSF exemption

499 Filer ID Number: _____

FEIN: _____

Federal Universal Service Fund Annual Certification Form

2020 Certification Form

A. FOR EXEMPT U.S. DOMESTIC CARRIERS ONLY (INTERNATIONAL CUSTOMERS skip this Part A. and move on to Part C. of form)

The Customer (or its affiliate identified below) files FCC Form 499-A revenue reports and, if applicable, FCC Form 499-Q revenue reports with the Universal Service Administrative Company (USAC) using their 499 Filer ID Number.

The Customer with the 499 Filer ID number listed above is entitled to an exemption from FUSF Surcharges for services from which it purchases from Supplier because at least one of the following applies:

- a. The Customer is purchasing the services for resale and directly contributes to the federal universal service support mechanisms based on its end-user revenues derived from such purchased services.
- b. The Customer is purchasing the services for resale to other resellers and has a reasonable expectation that the ultimate provider of service to the end-user will directly contribute based on revenues that incorporate the purchased services.
- c. The Customer is using the services for non-Interconnected VoIP services only.

B. CUSTOMER IS NOT EXEMPT FROM SUPPLIER'S FUSF SURCHARGES AND RELATED CHARGES:

Customer is not entitled to an exemption for some or all the Supplier's Services it purchases and will be assessed FUSF charges and other applicable taxes and surcharges by Supplier, because the following applies:

- a. Customer is purchasing the Services for its own administrative or end-user use.
- b. Customer is not required to contribute directly to the universal support mechanisms because Customer's FUSF contribution would be de minimis, i.e., less than US \$10,000 annually, or has recently applied for or just recently received an FCC Form 499 filer ID number (with the 499 ID provided above, if available) and is not yet paying monthly FUSF contributions to USAC.
- c. Customer is a systems integrator that derives less than five percent (5%) of its systems integration revenues from the resale of telecommunications services.
- d. Customer purchases Services for incorporation into Customer's service product and not for resale as a telecommunications service or VoIP service. This may include, but not be limited to, an information service provider (ISP), one-way VoIP services, or an enhanced service provider (ESP).

C. FOR NON-U.S. CARRIERS

CUSTOMER confirms that it is a carrier licensed in the country of: _____

Foreign Tax Identification Number: _____

Foreign Telecommunications Regulatory Agency or Authority Number: _____

Federal Universal Service Fund Annual Certification Form

2020 Certification Form

C. FOR NON-U.S. CARRIERS (CONTINUED)

The Customer hereby certifies exemption from FUSF contributions for ALL purchased services because at least one of the following applies:

- a. Customer is a foreign carrier that is purchasing per-minute-of-use services only to provide non-U.S. telecommunications services that originate outside of the U.S. but terminate in the U.S. for which all revenues are from non-U.S. end users.

Customer is a foreign carrier that is purchasing per-minute-of-use services only to provide international telecommunications services that either originate or terminate in the U.S. for which all revenues are from U.S. resellers that Customer has a reasonable expectation contribute directly to the federal universal service support mechanisms on the assessable portion of revenues from offerings that incorporate the purchased services.
- b. Customer is a foreign carrier that is purchasing per-minute-of-use services only to provide services that traverse the U.S. (i.e., non-domestic services that both originate and terminate outside of the U.S. but are routed through the U.S.).
- c. Customer is claiming a LIRE exemption
If USAC has determined that a filer is LIRE eligible, the following paragraph will show on its invoice:

LIRE ELIGIBILITY: If a carrier's quarterly interstate revenue equals less than 12.00% of their combined quarterly interstate and international revenue, the carrier is eligible for the Limited International Revenue Exemption (LIRE). As a result, your international revenue will not be used in determining your quarterly contribution base.

The Customer has an obligation to promptly update the information provided in this certification form. If at any time the Customer's certifications as contained herein are no longer accurate, the Customer shall, no later than thirty (30) calendar days of the change, complete and submit to Supplier an updated certification form and any other required documentation.

For future services purchased from Supplier after the date identified below on this certification form, Customer certifies that the new services will be treated in the same manner as the existing service(s) as certified to on this form, until Customer submits an amended form. If any new services purchased after the date of this certification form should be assessed FUSF Surcharges, Customer is obligated to notify Supplier and specify the BANs that are FUSF-assessable.

If the information provided by the Customer in this certification form or any updated certification, is at any time determined to be incorrect or if it changes and the Customer does not notify Supplier as required, Supplier reserves the right to pursue all available remedies, including but not limited to imposing any FUSF Surcharges and other taxes and surcharges applicable to the services provided by Supplier late-payment interest and/or penalties. The Customer also agrees to indemnify and hold Supplier harmless from any claim or action resulting in Supplier's reliance on the information provided by the Customer in this certification form.

The individual named below is authorized by the Customer to make this certification on its behalf. The undersigned authorized representative certifies that all statements above are true and accurate.

apeiron IP Network Services

Product Cut Sheet - Pricing and Terms

Effective Date: November 1, 2020

Terms & Conditions

The rates set forth in this Rate Card are the Apeiron rates that apply to Flat Rate LTE Wireless Broadband Services delivered on the AT&T LTE network.

Flat Rated LTE Wireless Broadband service provides a non-measured internet connection using an LTE sim card. This service is intended to support business uses such as email and web browsing and can be used as a primary internet connection for a fixed location office environment. This service does not support streaming video.

The rates listed applicable to Service Components are subject to change from time to time as set forth in the Agreement, including, without limitation, by publication of a new Rate Card. In such an event, as of the effective date of any new Rate Card, the new rates will replace the rates for the Service Components in any prior Rate Card for all subsequent orders.

Rate plan changes between AT&T Wireless Broadband plans can take effect the date of the rate plan change, or at the beginning of the next bill cycle. Backdated rate plan changes are prohibited on these plans and will be charged at the higher rate.

Rate plan changes to an AT&T Wireless Broadband plan from a product on a different rate card during a billing cycle are prohibited and will be re-rated to the original plan including any overage. If a customer wants to change to an AT&T Wireless Broadband plan from a different rate card, these changes should be made effective on the first day of the next bill cycle.

References in this Rate Card to a Service Component are not an indication of the availability of a specific Service Component. Not all services or features may be available. Apeiron sales representatives should be consulted for specific Service Component availability information.

LIABILITY. APEIRON SHALL HAVE NO LIABILITY FOR ANY SERVICE INTERRUPTIONS, DELAYS, ERRORS OR DEFECTS THAT LAST LESS THAN 24 HOURS.

INFRINGEMENT. APEIRON WILL HAVE NO DUTY TO DEFEND, INDEMNIFY, OR HOLD HARMLESS CUSTOMER FROM AND AGAINST ANY SETTLEMENTS, DAMAGES, COSTS AND OTHER AMOUNTS INCURRED BY CUSTOMER ARISING FROM THE ACTUAL OR ALLEGED INFRINGEMENT OR MISAPPROPRIATION OF INTELLECTUAL PROPERTY BASED ON EQUIPMENT AND/OR SUPPLEMENTAL SERVICES FURNISHED UNDER THIS RATE CARD.

Included in this Rate Card

AT&T Wireless Broadband

AT&T Wireless Broadband*			
Service	MRC	Data Throughput Speed ¹	AT&T Dynamic Traffic Management ²
AT&T Wireless Broadband – 8 Mbps ^{9,10}	\$95.00 per line	8 Mbps ³	10GB Included
AT&T Wireless Broadband – 12 Mbps ⁹	\$150.00 per line	12 Mbps ⁴	10GB Included
AT&T Wireless Broadband – 50 Mbps ⁸	\$237.00 per line	50 Mbps ^{5,7}	30GB Included
AT&T Wireless Broadband – 100 Mbps ⁸	\$355.00 per line	100 Mbps ^{6,7}	50GB Included

* AT&T Wireless Broadband does not allow access to entertainment and other non-business websites that offer video or audio streaming entertainment services, and is not intended for web hosting, or public or guest Wi-Fi.

¹Speeds are not guaranteed and subject to network availability.

²AT&T Business Fast Track enables qualified customers to prioritize their business-critical applications on the AT&T owned domestic 4G LTE Network.

³After 50GB of data usage, AT&T may temporarily slow speeds if the network is busy.

⁴After 75GB of data usage, AT&T may temporarily slow speeds if the network is busy.

⁵After 125GB of data usage, AT&T may temporarily slow speeds if the network is busy.

⁶After 175GB of data usage, AT&T may temporarily slow speeds if the network is busy.

⁷Up to 50Mbps & 100Mbps speeds require a wireless router with a Category 18 or higher modem and use where enhanced AT&T 4G LTE-Advanced technologies are available.

⁸5G+ Capability: 50Mbps & 100Mbps plans can be used with a 5G+ and/or 5G capable device - you'll get (a) access to AT&T 5G mmWave (5G+) and/or AT&T 5G low band spectrum (5G) services, where each is available, Limited availability; may not be avail. In your area. See att.com/5Gforyou for details. 5G+ service: Req's 5G+ capable device. Avail. Only in very limited parts of specific cities. 5G service: Req's 5G capable device.

⁹8Mbps and 12Mbps plans may not be used with 5G and/or 5G+ devices.

AT&T WIRELESS BROADBAND PLANS: AT&T Wireless Broadband is a nationwide connectivity solution that provides a data only LTE wireless connection for use at fixed locations using LTE enabled routers. AT&T Wireless Broadband plans offer tiered speeds, of up to 8 Mbps, 12 Mbps, 50 Mbps, and 100Mbps with no overage charges. Prices are for service only.

Eligible Devices: Plans may only be used for a line with a qualified data -only wireless router located in a fixed location using machine-to-machine business applications needing wireless data communication between the router and Customer's data center. Each qualified device activated with an AT&T Wireless Broadband plan must have a primary place of use ("PPU") within AT&T's owned and operated wireless network coverage area within the U.S., ("Domestic Coverage Area"). 5G/5G+ capable devices may only be used with 50Mbps or higher plans. CUSTOMER may not use Service with any device other than AT&T approved LTE enabled routers. A list of approved devices can be found at <https://iotdevices.att.com/certified-devices.aspx>. AT&T may place the non-complying device(s) on the appropriate plan(s). If a device not designed for the Service is used with this rate plan, AT&T reserves the right to switch CUSTOMER to an appropriate plan and bill CUSTOMER the associated fees for such plan. Devices must be activated with the IMEI of the device that will be in use. Removing a SIM from the device that was activated and placing it in an ineligible device is prohibited and may lead to the line being disconnected.

International roaming: Monthly plan prices do not apply to data usage while roaming. If roaming outside the Domestic Coverage Area, pay-per-use rates will apply unless an international blocking feature is added. International data rates vary, are subject to change and can be seen in the Partner Exchange portal.

5G+ NETWORK ACCESS & COVERAGE: 50Mbps and higher AT&T Wireless Broadband – Business plans for 5G/5G+ devices include access to

AT&T 5G millimeter wave (5G+) service. Requires 5G+ capable device. 5G+ service is not available in most areas; it is available only in very limited parts of specific cities. See att.com/5Gforyou for details. Device will display 5G+ coverage indicator when used in an area where 5G+ coverage is available. 5G+ service is available outdoors within line-of-sight of cell site only. Other restrictions apply.

5G NETWORK ACCESS & COVERAGE: 50Mbps and higher AT&T Wireless Broadband - Business plans for 5G/5G+ devices include access to AT&T 5G low band spectrum (5G) service. Requires 5G capable device. 5G service is not available everywhere. See att.com/5Gforyou for details.

Tiered Data Speeds: Data speeds for each plan are maximum data speeds; actual speeds may be slower, particularly after a usage threshold has been met. 50Mbps and 100Mbps tier peak data speeds are not available in all AT&T 4G/LTE coverage areas and requires 5G Evolution capable devices.

Data Restrictions: After a data usage threshold on a line has been met in a given month, Apeiron may slow the data on that line during periods of network congestion for the remainder of that billing cycle. Lines that exceed these thresholds may be considered excessive and subject to treatment outlined in the Excessive Use Policy. The thresholds are 175 GB for the 100Mbps plan, 125 GB for the 50Mbps plan, 75 GB for the 12Mbps plan and 50 GB for the 8Mbps plan. See att.com/broadbandinfo for details on AT&T network management policies. AT&T Wireless Broadband does not allow access to entertainment and other non-business websites that offer video or audio streaming entertainment services, and is not intended for web hosting, or public or guest Wi-Fi.

Excessive Use Policy: AT&T Wireless Broadband lines are intended to be used for End User Customer's official business use only. AT&T Wireless Broadband routers on the cellular data network will be used for business critical applications and business critical data. While access to entertainment and other non-business websites that offer video or audio streaming entertainment services, web hosting and public or guest Wi-Fi are not permitted on AT&T Wireless Broadband, AT&T does not block all of these services. For this reason, Apeiron recommends a managed service to monitor end user traffic and ensure end user is not in violation of the use restrictions. Apeiron will identify users with excessive usage that exceed the thresholds as listed under "Data Restrictions" and will notify CUSTOMER. Apeiron may provide excessive usage notification after any billing period; Customer will have the following billing period to take action upon receipt of the notification. Failure to take action could result in the line being disconnected or moved to another rate plan and loss of future access to Wireless Broadband plans. Once a Cellular Telephone Number (CTN) has received notice of abuse and the rate plans have been changed to Business Connect service, that CTN is no longer eligible to use or sign-up for AT&T Wireless Broadband service. Continued failure to control excessive usage, or re-enrolling CTNs that have been previously been removed from AT&T Wireless Broadband, may lead to termination from the Program.

Service Restrictions: Plans may not be used for entertainment video streaming, audio streaming, web hosting, public/guest Wi-Fi, and other prohibited uses set forth in the Business Agreement.

Business Fast Track: Feature uses "always-on," but configurable Critical Data quality of service ("QoS") network technology to give Customer a differentiated (i.e., enhanced versus "best effort") network experience for Business Application/ data traffic originated on and traversing entirely over the AT&T-owned domestic 4G LTE network (excludes microcells, AT&T Wi-Fi service, roaming partner networks, and AT&T 5G and 5G+ networks). The feature does not include priority access to available AT&T 4G LTE domestic network resources or preemption. Feature does not provide priority network access or prioritize eligible data traffic ahead of other data traffic, as other data traffic may receive a similar or higher priority level. Not available on 5G or 5G+ network.

Device Requirements: Each line must have an AT&T Wireless Broadband plan and an applicable 4G LTE -compatible device provisioned with a Business Application used for transport of data to Customer's data center.

Business Application: Applications that are used for the transmission of Customer's data to and from its authorized lines' 4G LTE -enabled Equipment, including routers, (each, a "Business Application"). Business Applications may include, without limitation, business video calling/ conferencing, push-to-talk, dispatch, logistics, command and control, telematics, and monitoring applications used by Customer's authorized CRU lines.

Usage Limitation: Each line may use Business Fast Track up to 50GB of data with the 100Mbps plan, 30GB of data with the 50Mbps plan and 10GB of data per month on the 12Mbps and 8Mbps plans. After Data Allowance is exhausted, all CRU traffic will be handled on a "best-efforts" basis until the beginning of the next billing cycle.

Limitations: Feature is available only within the DCA and only for data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network, depending on your device. Feature does not prioritize Customer's Business Application data traffic ahead of all other data traffic as other data traffic may receive a similar or higher quality of service. AT&T Business Fast Track may not be used with applications primarily intended for use by consumers, including but not limited to, (a) mobile video transmission applications, (b) applications that transmit data to and receive data from all or substantially all Internet endpoints, and (c) video streaming applications. Additional terms and conditions for AT&T Business Fast Track (formerly known as AT&T Dynamic Traffic Management – Enterprise) are set forth at www.att.com/abs-addtl-terms, as may be modified by AT&T from time to time.

Termination or Suspension: Apeiron reserves the right to terminate, suspend or restrict the feature if Customer's use is inconsistent with the terms and conditions for the feature or the acceptable use policies of the company.

GENERAL WIRELESS SERVICE TERMS: Subject to applicable Business Agreement. If Apeiron determines the use of the services violates any of the applicable terms or policies found in the Business Agreement, AT&T may in its sole discretion suspend, modify, terminate, or restrict service. Excessive Off-Net Usage: CUSTOMER will receive an off-net (roaming) usage allowance for each service. If customer exceeds the allowance, the service(s) may be restricted or terminated. Other restrictions apply and may result in service termination. Credit approval may be required. Apeiron reserves the right to suspend or terminate service to customer's account, place any non-complying device on an appropriate plan, and/or add any other required element of a plan.

Other Monthly Charges: Apply per line and may include taxes, federal/state universal service charges, a Regulatory Cost Recovery Charge (up to \$1.25), a gross receipts surcharge, an Administrative Fee, and other governmental assessments (including without limitation a Property Tax Allotment surcharge of \$0.20 – \$0.45 applied per CRU's assigned number), which are not government-required charges. Pricing, fees, promotions, options, restrictions and terms subject to change and may be modified, discontinued or terminated at any time without notice. Enter your ZIP Code to find specific tax rates and charges based on your primary place of use and info about other charges and fees at <https://www.wireless.att.com/cell-phone-service/additionalcharges/>. Additional one-time charges may apply.

Coverage: For the most current coverage info, check wireless.att.com/coverageviewer. Coverage may include areas served by unaffiliated carriers and not on AT&T's owned and operated network (off-net). Arrangements with these carriers may change from time to time, and coverage is subject to change without notice. Service is intended for use primarily within the DCA. For full-service terms and conditions, see <http://apeiron.io/tos>

The information herein is provided for convenience only. makes no representation or warranty regarding this information or that it is fit for any particular purpose and takes no responsibility for the accuracy of the information or that it reflects current or future pricing for Apeiron services.
